"Abbiamo letto di concerti, vespe e colli bolognesi, ninfette ninfomani e imbecilli che fondano gruppi rock. Disorder è altro. È una voce multireferenziale e personalissima. Perché Disorder parla ai singoli individui, alle anime salve. E solo dopo un corpo a corpo tra autore e lettore ognuno di noi potrà emettere la propria personale sentenza. Una sentenza che Franchi non può che attendere sereno e imperturbabile. Consapevole di essere un autore in grado di far saltare per aria sia il plot che le aspettative del lettore. Un autore spiazzante, capace di rischiare, renitente sia ai compromessi editoriali che a quelli stilistici" (Paolo Mascheri). Disorder è la prima raccolta di racconti dell'autore.
